

Table of Contents

iv	Preface
1	Introduction
2	Transportation Characteristics
3	Human and Vehicle Characteristics
4	Traffic Stream Characteristics
5	Volume Studies and Characteristics
6	Spot Speed Studies
7	Travel Time and Delay Studies
8	Roadway and Intersection Capacity
9	Accidents and Safety
10	Parking Studies and Characteristics
11	Transportation Demand Studies
12	Transportation Planning
13	Introduction to Traffic Control Devices
14	Traffic Signs and Markings
15	Traffic Signals
16	Traffic Signal Control Systems
17	Geometric Design of Streets and Highways
18	Geometric Design of Intersections and Interchanges
19	Intersection Control
20	Pedestrian Mobility
21	Bicycle Characteristics and Facilities
22	Speed Zoning and Control
23	Curb Parking and Control
24	Major Street Operations
25	Freeway Operations
26	Work Zone Traffic Control
27	Off-Street Parking and Terminals
28	Roadway Lighting
29	Environmental Impact Studies
30	Air Pollution
31	Highway Traffic Noise
32	Energy Consumption in Transportation
33	Traffic Legislation
34	Traffic Management
35	Traffic Engineering Administration
A	Statistical Analysis
B	Technical Communications
