

FRIDAYS, 4:00-5:00 PM
290 HEARST MEMORIAL MINING BUILDING

SEPTEMBER 7

Special Location: 502 Davis Hall

Ankur Mehta

UCLA

Collaborative Control and Autonomy for
Traffic Optimization

OCTOBER 12

Zheng Bu

CSO, VP of Didi Chuxing

Redefining Transportation with AI

SEPTEMBER 14

Hilary Nixon

San Jose State University

Financing the Future of Mobility: What
Does the Public Think?

OCTOBER 19

Special Location: 502 Davis Hall

Hani S. Mahmassani

Northwestern University

Integrating Shared Autonomous Fleet
Services in Urban Mobility: Dynamic

SEPTEMBER 21

Erin MacDonald

Stanford University

Designing for Customer Consideration of
Alternative Fuel Vehicles, Instead of Final

OCTOBER 26

Saurabh Amin

MIT

Highway Traffic Operations under
Reliability and Security Failures

SEPTEMBER 25

Special Location: Bechtel Auditorium

Violeta Bulc

*European Commissioner for Mobility and
Transport*

The Future of European Mobility: safe,
clean and connected

NOVEMBER 2

James Sallee

UC Berkeley

Are New Vehicle Emissions Standards
Effective and Efficient?

OCTOBER 5

Linda Hill

UC San Diego

Early Results from the LongROAD Study:
A Five-city Observational Study of 2990
Older Drivers

NOVEMBER 16

Robert Poole

Reason Foundation

Rethinking America's 20th-Century
Highway Institutions

NOVEMBER 30

Jeff Ban

University of Washington

Modeling Dynamic Transportation
Networks Using Differential
Complementarity Systems

Organized by ITS and the Transportation Students Organizing Committee (TRANSOC)

Seminar may be attended for credit: CE 298 (Bayen), 1 Unit
