Dear Colleagues and Friends,

Thank you for all your hard work this year, for your contributions to the UC Innovative Mobility Initiative and ways to share your “innovative mobility” research ideas with others. For those that were unable to join us, I invite you to check out our complete calendar of events online.

The event exceeded expectations, with more than 300 attendees, representing 19 universities, 10 state agencies, and 13 private sector organizations from California, Washington, Oregon, and Arizona. The event featured presentations from national, state, and local experts.

Another recent opportunity for collaboration was the ITS Berkeley TRB Reception on Jan. 13 in Washington DC. It was also a nice opportunity to gather with colleagues, stakeholders, and partners. We are grateful for the enthusiastic level of program participation and the resulting dissemination of innovations in transportation planning from decision-makers, exchange ideas and learn about emerging trends.

The Bay Area, including the Bay Area Rapid Transit (BART) and the Bay Area Toll Authority (BATA), have an opportunity to incorporate these ideas into future work. For example, the Bay Area Cross-Regional Transportation Collaboration (CUTC) exists to provide attendees the opportunity to share innovative solutions and ideas.

We enjoyed a good discussion on the plan and the need to plan more opportunities to bring us all together moving forward. It will shift over the years, but this strategic plan gives us tangible actions that will set our course — as well as some moonshot goals that we will figure out.

Thank you again for all your hard work this year, for your contributions to the UC Innovative Mobility Initiative and ways to share your “innovative mobility” research ideas with others.

Go Bears, you enjoy some time off between the semesters, really has made an impact on ITS Berkeley! Thank you again for all your hard work this year.
