Dear Friends and Colleagues,

I wish to extend my warmest congratulations to all our MEng students and faculty members. As one of the nation’s leading transportation master’s programs, ITS Berkeley has once again produced a remarkable generation of our future transportation leaders.

Many of our students and faculty have been engaged in exciting and impactful research on topics ranging from urban mobility to climate change, traffic safety to transportation technology. Our research is not only impactful but also relevant to the needs of the transportation industry and society as a whole.

Our research and educational initiatives are made possible through the generous support of our alumni and friends. Your contributions have enabled us to continue our mission of advancing transportation research and education.

I want to thank everyone who came out to support our students and faculty. It was a true celebration of their achievements. They have all worked incredibly hard and their success is a testament to their dedication and hard work.

As we look ahead to the future, I am excited about the opportunities that lie ahead. Our research continues to grow and we are committed to ensuring that our students are prepared to meet the challenges of the transportation industry.

Thank you for your support and for being a part of our transportation community. I hope to see you at future events.

Best regards,

Alexandre Bayen
ITS Director
